Keyboard shortcuts — quick reference

General

Ctrl / Cmd + S	Save the current file
-----------------------	-----------------------

Ctrl / Cmd + F <i>when the sidebar is visible</i>	Jump to the search box
---	------------------------

Editing & formatting

Ctrl / Cmd + Z	Undo
-----------------------	------

Ctrl / Cmd + Shift + Z <i>or Ctrl + Y on Windows</i>	Redo
--	------

Ctrl / Cmd + B <i>cursor in the editor</i>	Bold the selected text
--	------------------------

Ctrl / Cmd + I <i>cursor in the editor</i>	Italicize the selected text
--	-----------------------------

Navigation

Enter / Space <i>when browsing the file list with Tab</i>	Open the focused file
---	-----------------------

Standard text-editing shortcuts — copy, paste, cut, select all, and arrow-key navigation — work as usual, since the editor is a native browser text field.
