Keyboard shortcuts — quick reference

General

Ctrl / Cmd + S	Save the current file
Ctrl / Cmd + F <i>when the sidebar is visible</i>	Jump to the search box
Ctrl / Cmd + K	Open the quick-open file switcher
Ctrl / Cmd + Shift + F	Toggle zen mode
Esc <i>when no dialog is open</i>	Exit zen mode

Editing & formatting

Ctrl / Cmd + Z	Undo
Ctrl / Cmd + Shift + Z <i>or Ctrl + Y on Windows</i>	Redo
Ctrl / Cmd + B <i>cursor in the editor</i>	Bold the selected text
Ctrl / Cmd + I <i>cursor in the editor</i>	Italicize the selected text

Navigation

Enter / Space <i>when browsing the file list with Tab</i>	Open the focused file
↑ / ↓ <i>inside the quick-open palette</i>	Move the highlighted result
Enter <i>inside the quick-open palette</i>	Open the highlighted result
Esc	Close the quick-open palette

Standard text-editing shortcuts — copy, paste, cut, select all, and arrow-key navigation — work as usual, since the editor is a native browser text field.
